Participants			
Female:	16		
Male:	3		
Non-binary:	0		
Total number of participants:	19	From total number of countries:	1
Description			
<p><i>Provide a short description of the event and its activities (agenda, description of the activities, outcome, evaluation of the training and feedback from participants).</i></p>			

The Training of trainers in Reggio Emilia was facilitated by YouNet and lasted 2 days. The organisation was responsible for preparation of the venue, specific agenda, infopack (including the tips on travel, emergency contacts, transport etc). YouNet took care of contacting local stakeholders (schools, teachers, youth organisations, youth workers, social workers, local institutions etc) in order to gather participants. The main objective of the events was to give further insights on the topic of hikikomori in order to enable participants to later implement the workshops in schools, next phase of the project.

The trainer, president of the organisation Hikikomori Italia, helped with facilitation of the first day workshop, adding a specific focus on the phenomenon of Hikikomori and tailoring the training according to participants' needs and questions. The second day of the event, we carried out more practical activities with our trainer from YouNet using non-formal methods in order to test them and to judge if useful or appropriate for application at the workshops in schools.

Monitoring and evaluation was carried out by YouNet through an evaluation form that was distributed to participants to the event. Feedback from participants was gathered through said evaluation form. In the question about the overall training content, 75% of the participants that responded to the questionnaires (8 in total) stated that it was excellent and 12.5% that it was very good. 75% of the responses stated that they were extremely satisfied by the content of the training, which was informative and engaging.

The outcome of the meeting was positive, and it was essential for preparation to the next phase of the project. In fact, thanks to this meeting, the participants are now ready to implement the next phase of the project and are more aware about the issue of. The following is the dissemination link about the training of trainers held in Italy, published in the official website of the project:
