

EUROPEAN SOLIDARITY CORPS in Frattamaggiore, Italy

TO APPLY, PLEASE FILL THE ATTACHED WEB FORM

<https://forms.gle/Fic3E1vYPSbMPe8V6>

DEADLINE: 21/01/2024

The project lasts a total of 11 months from February 2024 until December 2024.

Financial conditions:

- Reimbursement for travelling both at the beginning and end of the project up to 275€
- Monthly allowance: 150€ pocket money + 160€ food money paid in the advance at the beginning of each month.

The main goal of the project is to match international volunteering with the empowerment of the local community in which the volunteers will live in.

The project is configured as an opportunity for discussion, exchange and growth both for the four hosted volunteers and the local community, not intended only as a physical and figurative place of hosting, but as an "educating" community that contributes to the development of skills and knowledge of all participants in the project.

In turn, the local community benefits from the meeting and cooperation with young European volunteers who, with their commitment, enthusiasm and passion, will contribute to the regeneration of a territory with actions of solidarity and civic commitment.

Through the project we want to demonstrate with concrete actions that solidarity, mutual support, cooperation, the taking care of the common goods and of everyone's problems is a win-win strategy, we all the involved parties take benefit. This is a practice that brings solidarity into the local community, solidarity as one of the value on which Europe is founded, which must be rediscovered as a keyword of the associated life, and that can ensure that local contexts and European Union are connected without fractures, around shared goals.

The objectives of the project are:

1. To support the activities dedicated to children and contribute to the cultural program of the socio-cultural center *Il Cantiere*;
2. To facilitate knowledge of the cultures of European volunteers and migrant communities present in the territory through recreational and aggregative activities;
4. To develop teamwork and organizational skills in volunteers through the implementation of events of territorial animation, in both formal and informal contexts;
5. Improve communication skills and abilities to decode verbal and non-verbal languages in multicultural contexts, through formal, non-formal and informal activities;
6. Developing the spirit of initiative and entrepreneurship, social and civic competences "to ensure resilience and capacity to adapt to changes" through moments of active participation in the life of the local community;
7. To support the migrant communities that live in the area;
8. To do activities that promote interculture with both young people and adults.
