# Local Workshops in Schools

Project no. 101093772

Call: Erasmus-Youth-2022-CB

Project start date: 01.12.2022

Project end date: 30.11.2024

## EVENT DESCRIPTION SHEET

PROJECT	
<b>Lead organisation:</b>	YouNet APS
<b>PIC number:</b>	949011238
<b>Project name and acronym:</b>	Beyond the doorstep

EVENT DESCRIPTION			
<b>Location:</b>	Agricultural Technical School Garibaldi - Da Vinci, Cesena, Italy		
<b>Event name:</b>	Local workshops in schools in Italy		
<b>In situ/online:</b>	in-situ		
<b>Date(s):</b>	01 and 07/02/2023		
<b>Participants</b>			
Female:	31		
Male:	35		
Non-binary:	0		
Total number of participants:	66	From total number of countries:	1
<b>Description</b>			
<i>Provide a short description of the event and its activities (agenda, description of the activities, outcome, evaluation of the training and feedback from participants).</i>			

The Local workshops in the school were organized by the trainers who participated in the international workshops and in the training of trainers held previously. Local workshops were held in the local language. They were directed to high school students of Agricultural Technical School Garibaldi - Da Vinci (<https://www.garibaldidavinci.edu.it/>) located in Cesena, Italy.

The activities were organized with the use of non-formal methodologies (role games, activities in small groups, followed by debriefing and reflection). The workshops took in the school and were constituted by two meetings with the same classes and the same students. In total, 66 participants attended the workshops.

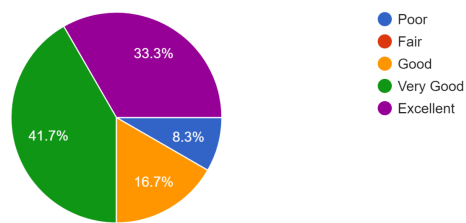

Activities were performed based on a non-formal education method. We performed games that had as final scope raising awareness about the phenomenon of social withdrawal and isolation. The games allowed the participants to play and to contribute anonymously without biases. In addition, we provided participants with theoretical tools in order to get to know better the phenomenon and to fight against, for examples showing useful links and hotlines of Italy to address issues to and ask for help and through the use of a dedicated short-movie discussing the issue of school and social isolation.

Monitoring and evaluation was carried out by YouNet through an evaluation form that was distributed to participants to the event. Feedback from participants was gathered through said evaluation form. In the question about the overall workshop content, 33.3% of the participants that responded to the questionnaires stated that it was excellent and 41.7% that it was very good. 91.7% of the responses stated that participants increased their knowledge about the topic of hikikomori after attending the workshops.

Here follows some statistics collected after the events:

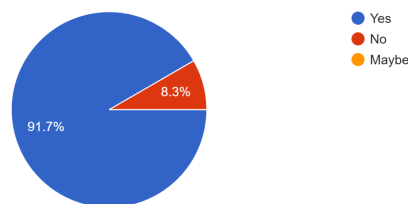

1. How would you rate the overall quality of the local workshop?

12 responses

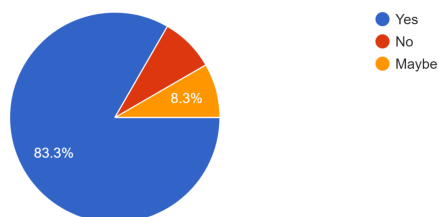

2. Did the interactive elements of the workshop (e.g., group activities, discussions) provide you with participation opportunities?

12 responses

14. Did the content of the workshop give you ideas about solving the problem of hikikomori?

12 responses

The outcome of the workshops was positive, and they were the most important activity of the project. The following is the dissemination link about the training of trainers held in Italy, published in the official website of the project:
