

LONG TERM VOLUNTEERING

START: ASAP

HOW LONG: 360 days

LOCATION: OPOLE, POLAND

**Foundation for the Development of
Empathic Education**

ABOUT

FREE - Foundation for the Development of Empathic Education, is a place for our children to learn about themselves and each other, to develop and play. FREE is attended by children with disabilities, exceptional talents, disabilities and special educational needs. At FREE we fully implement the idea of inclusive education and social rehabilitation of children with disabilities.

MISSION

Each of us is different - we who write this text and you who read it.

DIVERSITY is the most beautiful thing that could happen to us. AND NEURODIVERSITY? It means that each of us perceives the world in his or her own way, both the way that is considered typical and the way that differs from typicality. It is by being different from each other that the greatest things are born and the world is interesting.

We dream that we all learn to be beautifully different from each other. But for this to be possible, people must learn to be attentive and open to each other and the world - without judging others, with a readiness to listen. This is the ground that, in our opinion, will make it possible to raise happy, creative people who are an added value to the developing society.

ACTIVITIES

We want volunteers to follow the kids during everyday activities. So kids can learn and develop their language and interpersonal skills. Helping them with homework, joining the classes and supporting teachers.

Also volunteers will ask to prepare and propose their own activities related to their interest, skills and experience. It can be anything which will be valuable for a kids from sport classes, or art, or cultural, cooking - literally anything worth.

Except that volunteers will join the excursions and camps we organize for our pupils.
