**Work Package 1**

<b>Work Package 1: Training, Commemoration and Cultural Preservation, Italy</b>					
<b>Duration:</b>	M4 – M7	<b>Lead Beneficiary:</b>	YouNet APS		
Objectives					
<ul style="list-style-type: none"> <li>▪ Raise awareness and commemorate the stories of women and children’s resilience in World War II</li> <li>▪ Foster intergenerational dialogue, bringing younger generations closer to EU history, thus fostering their sense of belonging to EU</li> <li>▪ Build capacity and expertise of staff, trainers and youth workers on the Human Library method and gamification tools in education on remembrance</li> <li>▪ Best practice exchange among the participating countries on non-formal methods for actions on EU history and active Remembrance</li> <li>▪ Preserve and document WWII-related artifacts in Bologna, Italy with the 3D scanning technology</li> <li>▪ Facilitate historical research and education by commemorating WWII, training individuals in innovative learning methods and digitally documenting historical artifacts, such as personal belongings of civilians from WWII</li> <li>▪ Preserve and ensure accessibility of the artifacts connected to the topic of women and children’s resilience thanks to creation of the 3D models and digital gallery</li> </ul>					
Activities and division of work (WP description)					
Task No (continuous numbering linked to WP)	Task Name	Description	Participants		In-kind Contributions and Subcontracting (Yes/No and which)
			Name	Role (COO, BEN, AE, AP, OTHER)	
T1.1	International Training of Trainers on the Human Library method and	The task involves organizing an international training program aimed at equipping trainers and youth workers from the partner organisations with the necessary knowledge and skills to effectively implement the Human Library method and gamification techniques for	YouNet APS Spark	COO BEN	No

	gamification for EU remembrance	<p>EU remembrance initiatives planned within the project (HL event, Urban Trekking). The ToT will be prepared and facilitated by the trainer from YouNet. 2 participants per country, trainers, experts and youth workers in particular will be invited to the training. Before the ToT, YouNet will share with partners infopack, containing agenda, venue, objectives and practical information (accommodation suggestions, public transport tips, basic Italian vocabulary, emergency number etc.).</p> <p>During the ToT, experts from Spark will introduce to partners 3D scanning technology to make them prepared for the next project activities connected to the production of the 3D models of objects connected to WWII resilience in each of partner country.</p>	UniTBv WOH	BEN BEN	
T1.2	Commemoration day of Bombing of the city of Bologna (Italy)	YouNet APS will take care of preparation and organisation of the public event for commemoration of Bombing of the city of Bologna in 1944 during the WWII in Bologna, Italy. This phase includes: preparation of the detailed agenda, selection and preparation of the venue (with the consideration of its accessibility for all participants), design of the promotional materials for online and offline communication about the event (e.g. posters, flyers, graphics for social media platforms). Invitations through online and offline communication will be sent to National Association of Italian Partisans (ANPI), schools, researchers, professors, young individuals, local institutions, libraries, organisations and policy makers. The event aims to engage the entire community, and everyone will be encouraged to participate.	<b>YouNet APS</b> Spark UniTBv WOH	COO BEN BEN BEN	No
T1.3	3D scanning of objects connected to WWII in Bologna, Italy	<p>The objective of this activity is to conduct 3D scanning of objects that are directly connected to WWII period, stories of women and children in the city of Bologna, Italy. The task will be managed by Spark – specialist in 3D scanning technology, in cooperation with YouNet. The task will be done in 2 steps:</p> <p>1. Identification of Objects: the first step is identification of at least 3 objects – this step will be done by YouNet in collaboration with ANPI (the first possible objects, such as some artifacts, belonging to the Bologna partisans were already discussed in the application drafting stage).</p> <p>2. 3D Scanning – expert from Spark will take care of the 3D scanning of the identified objects with the use of the advanced technology and equipment provided by Spark to capture the physical characteristics, textures, and dimensions of the objects ensuring a detailed representation.</p> <p>Prepared scanned materials will then be processed into 3D virtual models by specialists from Spark.</p> <p>3D scanning process will be done after the 2-day training and commemoration event in Bologna. Experts from Spark will stay in Bologna for one additional day with aim to scan previously prepared objects.</p>	YouNet APS <b>Spark</b>	COO BEN	No
T1.4	Production of the 3D models of the scanned	This task will be managed by Spark in collaboration with YouNet. Scanned data collected by Spark's experts in Bologna will be post-processed by them to create metrologically precise and high resolution digital copies of the scanned artifacts in the form of 3D	YouNet APS	COO	No

	objects	models. YouNet will take care of preparation of associated relevant metadata with each scanned object, including information such as historical context and significance. This process will be done in collaboration with ANPI. All partners will translate prepared descriptions in their language. It will be available therefore in English, Italian, Romanian, Polish and Latvian.				Spark UniTBv WOH	BEN BEN BEN	
Milestones and deliverables (outputs/outcomes)								
Milestone No (continuous numbering not linked to WP)	Milestone Name	Work Package No	Lead Beneficiary	Description		Due Date (month number)	Means of Verification	
MS1	Delivery of the ToT to participants	1	YouNet APS	ToT was prepared and delivered to the participants		M4	Participants list; certificates of attendance; photos; materials shared with partners and participants.	
MS2	Completion of the 3D scanning process for the selected objects	1	Spark	The identified objects in Bologna are scanned and data is collected by Spark experts		M4	Data collected by experts of Spark	
MS3	Finalization of the 3D models	1	Spark	The 3D models are finalized and exported in a form of animation. Descriptions and historical data are completed		M7	Publication of the 3D models including descriptions on the project's website	
Deliverable No (continuous numbering linked to WP)	Deliverable Name	Work Package No	Lead Beneficiary	Type	Dissemination Level	Due Date (month number)	Description (including format and language)	
D1.1	Event Description Sheet: International Training of Trainers on the Human Library method and gamification for EU	1	YouNet APS	R - Document	PU — Public	M4	Event Description Sheet report on implementation of the activities in WP1: <b>Training of Trainers:</b> 1st day of the 2-day event in Bologna, Italy. Each partner organisation will delegate 2 participants to the ToT (trainers, youth workers or staff members involved in the project implementation), in total there will be 7 participants and 1 trainer (YouNet will delegate 1 trainer and 1 staff as participant). ToT will be	

	remembrance and Commemoration day of Bombing of the city of Bologna (Italy)						<p>also a space for the best practice exchange among partners on non-formal methods in EU remembrance topic.</p> <p>ToT will take place in Bologna and it will last 1 day. The agenda includes:</p> <ul style="list-style-type: none"> <li>- HL methodology: concept, examples, good practices</li> <li>- How to select and train a Book: brainstorming, recruiting and training; how to build a catalogue</li> <li>- Guidelines to organise a HL event (venue, timing, resources)</li> <li>- Gamification principles and dynamics</li> <li>- How to gamify Urban Trekking: ActionBound, guidelines, practical advice</li> <li>- 3D scanning technology – presentation by Spark</li> <li>- Q&amp;A, practical information, evaluation of the training</li> </ul> <p>Training material in form of presentation and notes will be shared with partners in a common Google Drive folder after the training.</p> <p>All participants will sign the participants list and will be asked to fulfill the EUSurvey to evaluate the training.</p> <p><b>Commemoration Day:</b> 2nd day of the 2-day event in Bologna, Italy. Estimated number of participants in the event is 60 (including 2 representatives from each partner country and participants from the local community). All participants will be asked to sign the participants list at the beginning. Ongoing communication and insights from the event will be published on the social media of YouNet and partner organisations (Facebook and Instagram). After the event the summing up video will be published on YouNet's communication channels (website, Facebook, Instagram and YouTube channel). Agenda includes:</p> <ul style="list-style-type: none"> <li>- Welcome speech by YouNet</li> <li>- Introduction and presentation of CERV programme and SURVIVE project</li> <li>- Keynote Speech on Bombing of the city of Bologna in 1944 by the representative of ANPI</li> <li>- World Café conversations "Remembering the Bombing of Bologna: Reflections on the Impact, Resilience, and Lessons Learned."</li> <li>- Q&amp;A</li> <li>- Closing Speech and greetings</li> </ul> <p>All participants of the event will be asked to complete the EUSurvey after the event.</p>
D1.3	3D models of the	1	Spark	DEC —3D	PU — Public	M7	3D models of at least 3 objects connected to the stories of women and children's resilience in the WWII in Bologna, Italy in form of animation

	scanned objects			models			<p>will be published on the website of the project in an online gallery form. Exhibition will include descriptions and historical significance of the artifacts. Partner organisations will share the outcomes in their communication channels (social media, websites). Descriptions of the objects will be available in English, Italian, Romanian, Polish and Latvian.</p> <p>Furthermore 3D models will be presented during the HL event in Italy and on the final international conference at the end of the project. Descriptions and QR codes leading to the digital gallery will be included in the further developed project's brochure. Animations will be incorporated in the video testimonies of the Human Books from Italy, published on the special playlist of YouTube channel of YouNet.</p>
