

## Zoologijos muziejus

*Are you interested in all things biology? Are you keen to get stuck into zoology?*

*Then this opportunity is for you!*

# About Zoology Museum

Vilnius University Museum of Zoology is the oldest scientific museum of zoology in Lithuania and one of the oldest in Europe. It belongs to Life Sciences center.

*The mission of the Life Sciences Center is to create and develop the life sciences ecosystem at Vilnius University and in Lithuania by conducting internationally competitive science and studies, educating new generations of scientists and innovators.*

Funded by  
the European Union

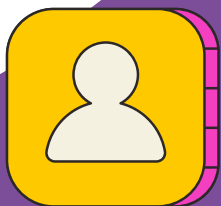

# Volunteering position

As a volunteer at Zoology Museum, you will assist the museum curator with:

- cataloguing specimens,
- researching animal species,
- assisting with exhibit preparation,
- engaging with museum visitors to provide information about the collection,
- museum's publicity.

We are looking for 1 long-term volunteer for a new season starting in October 2024 and finishing in May 2025.

## Volunteer profile

We are looking for someone with a biology/zoology background, who is not afraid of hard work, has stable hands, and is detail-oriented and creative. It is important to note that a person must have no allergies since working with exhibits involves dust!

*Vilnius, Lithuania*
